
Upload Dockerfile to GC

**GC downloads R and data
files to
SYD cloud server**

**GC – SYD opens up a port for
us to access the Docker
running on the Cloud**

Testing out Google Cloud

1. Type ``setwd("/home/rstudio")`` into your console
2. Click "Go to Working Directory" in the Files pane of RStudio
3. Type ``source("scMerge.R")`` into your console
