Issues to address using Google Cloud

1. Installing packages can take up to 1.5 hours

2. Downloading data from School server can be throttled

3. Laptops might not handle the computations

4. Ad hoc changes to the GitHub repo could disrupt everything

Issues to address using Google Cloud

1.

2.

3.

Not a problem!
ALL packages and data on the cloud.
Docker ensures a consistent user experience.

4. omg.R updates materials in case of major failure
